He realizes that the orbs are now coming in his direction. KING ZENTAR (40) in his royal gear and his men chase Mark down with fire orbs.

ASIM (40) dressed in a red gallebaya and taqiyah an appears out of nowhere stepping out of a portal. Right in front of Mark as a human shield.

MARK

Boy, am I glad to see you.

Asim looks at Mark briefly, they run for cover and he throws a massive Ice orb. They hide in an old shack in the woods outside of the city. King Zentar and his men surround the shack.

KING ZENTAR

Come out, and show yourself.

Mark and Asim look at each other, foot steps hitting the porch of the shack. Fire orbs fill the shack and Asim tries to command a portal.

MARK

Maybe, if you stop throwing orbs.

The King and his men storm the shack kicking the door in. Mark stands up to the King and his men. He gives it one more try to throw an orb. Mark muster up a baby orb and throws at the King's way. The King smirks and stops the orb in mid air. He makes that baby orb to a massive orb and throws it back in there direction.

KING ZENTAR

You really don't get this at all.

Asim commands the portal and grabs Mark in the portal they go. The King and his men try to go through the portal but are closed out.
